This phase will include Thawing and evaluation of Oocytes, Sperm isolation and preparation, Insemination of Oocytes*, Culture of Oocytes/Embryos, and Extended Culture of Embryo (Blast)

*If ICSI is recommended a one-time charge of **\$1500** will be added

Phase 3 – Cryopreservation and Storage of Embryos **\$1,800.00**

This phase will include cryopreservation of Embryos and 1-year storage of Embryo(s)

Total Cost of Donor Egg Cycle without ICSI **\$4,750.00****

Total Cost of IVF Cycle with ICSI **\$6,250.00****

Total payment is due in full one week prior to egg fertilization. Refunds for IVF cycle are based on the phases that are not started. Once you have entered a phase it is considered complete.

Genetic Testing (Optional)

- PGT 1-5 Embryos - **\$2,000.00**
- PGT 6+ Embryos - **\$2,500.00**

This includes lab fee for biopsy and fixation of embryos.

Other Individualized Costs:

- Igenomix or Natera lab fee for PGT per embryo
Due to the variability of the charges per patient please discuss with IVF nurse directly.
- Laboratory fees for bloodwork

I acknowledge that the global package has been explained to me. That I have read the above pricing. That I understand that not all services required for treatment are covered in the global package and that I will be responsible for payment in full at time of service. There will be a 3% charge for all credit card transactions.
